ORGANIZE DEAF SMITH COUNTY

JOINS TEXAS RAFFER AND MILO MAIZE ASSOCIATION—OFFICERS ELECTED.

HERFORD, Tex., Nov. 6.—At one of the most enthusiastic meetings ever held in Herford, the Deaf Smith County Section of the Texas Raffer and Milo Maize Association was organized. The meeting was held in the court house, and proceeded by electing Judge L. Gough as temporary chairman and Editor Guthrie of the Brand as temporary secretary.

Porter A. Whaley, secretary of the Board of City Development, Amarillo, was the first speaker. He touched on the wonderful prospects before the whole Panhandle and made a plea for co-operative effort. He stated that Potter county had been glad indeed to embrace the opportunity to align itself with the Raffer association as a constituent member, and had paid its assessment gladly. The market was also being greatly increased for milk, butter and ice cream, according to the speaker, and he said this would continue.

J. K. Wacker, Field Secretary, Texas Raffer and Milo Maize Association, then spoke. He outlined the past work of the association, and explained its future plans. He talked for thirty or forty minutes, and was so thoroughly infused with his subject as to carry conviction in all present.

After the speaking, organization of the Deaf Smith County association was begun. Officers as follows were then elected: D. L. McDonald, president; A. J. Lipscomb, vice-president; and Judge L. Gough, secretary-treasurer. These officers, together with Messrs. W. S. Williams and W. H. D. Tucker were then elected as an executive committee. A large number present joined the association, and about \$140.00 in cash was immediately secured for the work. The executive committee will immediately make a canvass and increase this amount.

The association is composed of farmers and business men, and it will act also as a regular clearing house for general information about Herford and Deaf Smith county, and already plans a Thanksgiving Jubilee to be held at Herford, to which all residents of the city and county are to be invited.

Fined in City Court.

J. L. Gibson was fined \$10.00 for disturbing the peace. Both these fines were paid.

WILL DIG WELL AT CLIFFSIDE

FORTY-SIX TONS OF MACHINERY UNLOADED—WILL PUT UP BUILDINGS.

Apparatus for drilling wells in the search for potash, was unloaded at Cliffside yesterday. The equipment, which is owned by the United States Geological Bureau, weighs about 32,000 pounds or 16 tons.

The government has leased for one year two blocks on the Cliffside townsite, and it is here that excavations and experiments will be made in the search. An expert chemist, who is a Texas man, will arrive in the near future, to make the tests for potash.

The lumber for the buildings has been unloaded, and it is expected that the work will soon be well under way. One well will be sunk for the first test.

Potash is very valuable, being worth about \$15 per ton before the war started and since the supply has been cut off from Germany, it has brought as much as \$250.00 per ton.
